

1325CCP

CUSTOM PRINTED FILAMENT TAPE HANDLES -50lbs.

Technical Data Decker Tape 1325 tape handles are made of a high performance bi-directional filament tape that is coated with a rubber adhesive system. This bi-directional reinforced polypropylene offers excellent resistance to edge tear and splitting due to impact shock. Features / Benefits This product features a high performance, durable plastic adhesive handle requiring no heat, moisture or solvent activation, which creates a convenient handle when ends are attached to both sides of a box or package. The handle portion is available in both plain white or custom printed. Packaged in a convenient dispenser box, these tape handles store easily in warehouses and at registers. Applications For use in carrying heavy boxes and bulky products up to 50lbs. This includes golf bag boxes, rolled carpets, sporting goods, household and hardware items, garden tools and equipment.
