

4565

Printers Roller Wrap

DESCRIPTION

The Decker 4565 printer's roller wrap is a woven fiberglass cloth that has a tightly cured silicone surface. This product has a natural grip that makes it better suited for roller wrap than many teflon tapes.

FEATURE

- Applications: used to wrap around rollers/mandrels on printing, coating and converting equipment
- Non-residue removable adhesive that allows tape to be easily lifted and repositioned
- Eliminates mess, clean-up and downtime from adhesive or printing ink buildup on rollers
- Instantly restores surface worn or damaged rollers to serviceable condition
