

426L Red

D/C Red BOPP Tape with
Foil Strips

DESCRIPTION

The Decker 426L is a red double coated polypropylene film tape with an aggressive rubber adhesive system. This product is laminated with foil strips.

FEATURE

- Applications: holding, attaching, splicing, joining, laminating or mounting applications
- Product used to easily identify splices in paper, films, and a variety of substrates, especially when splices must be removed
- High tack adhesive and excellent quick stick to many substrates
